

Homework Help

If you are having difficulty with your homework, then go through the following steps

1. Check your notes that you wrote down in class.
2. Look over any examples we did together in class from your homework.
3. Check Google Classroom to see if Mr. Mills posted a video for the concept.
4. Ask a sibling or a parent for assistance.
5. Contact fellow classmates for help.
5. Go to dmills.weebly.com and click on "Additional Resources" at the top of the page. Choose any of the links there and search for the topic you're having difficulty with.
